Blairgowrie High School
Higher Grade Art & Design, Computing, English

1995 - 2001:

SKILLS

As Web dispatch assistant, my jobs requires me to be self motivational and employ good communication skills as I work alone, contacting management online. I always do my best to ensure the outgoing purchase arrives with the customer in the best possible condition in as quick a time as possible as I understand it is my work which the customer will judge their expeience.

The course I studied at ECA was ideas based, and incorporated practical skills such as letterpress, screenprinting, lino printing and offset litho. Working singularly or as part of a group, I have worked on multiple simultaneous projects all with challenging deadlines. Software I am most practised in are Photoshop, Freehand, Dreamweaver, InDesign and Flash. I am also familiar with Final Cut Express, Quark Express, Illustrator and InDesign.

I have a strong passion for Constructivism, Typography and motorsports, especially Formula 1. I also enjoy drawing, painting, photography, reading and socialising with friends. I also keep active with longboarding, jogging and attending a gym.
